Project Design Phase-I - Solution Fit Template

Project Title: strategic product placement Analysis: Unveiling sales impact with tableau visualization

Team ID: LTVIP2026TMIDS36686

3. TRIGGERS

TR

Declining Revenue or Data Overload: Management notices

10. YOUR SOLUTION

SL

Tableau Interactive Dashboard: A visualization module that integrates the entire customer journey—from "Entice" to "Extend"—to reveal total sales impact.

8. CHANNELS of BEHAVIOUR

CH

R

&

E

f

manual spreadsheets are too slow to show real-time sales impact across different city tour categories.

Online & Offline Bookings: Data is collected from the website (Online) and on-site ticket booths (Offline).

1. CUSTOMER SEGMENT(S)
Tour Operators & Sales Executives: Managing local city tour operations and needing to understand revenue drivers.

CS

6. CUSTOMER CONSTRAINTS

Lack of Technical Expertise: Staff may not have deep data science skills to query databases directly; limited time to manually clean data.

5. AVAILABLE SOLUTIONS
Static Reports: Current reliance on Excel or manual logbooks which lack interactivity and .
